

# Sangster PTA's Junior Science Club Fall 2023 Session

The Science Seed™ is a science enrichment program designed to develop a love of science that will last a lifetime. The Science Seed™ teaches geology, chemistry, biology/nature, physics, and nutrition in fun, interactive and age-appropriate ways.

Students will bring home from each class a note informing parents what was explored and how to continue the lesson at home. Throughout the session, students will contribute to their "science journal", which will come home with them on the last day.

**Topics will be different than those offered previously at Sangster ES.**

**Space is limited to 20 children**

**Who:** Kindergarten, 1st and 2nd graders

**When:** 5:00-6:00pm Tuesdays

Sept 26, Oct 10, Oct 24, Nov 28, Dec 12

**Where:** Sangster ES (classroom will be sent prior to the start)

**Why:** To start a lifelong love of science early

**Questions?** [TheScienceSeed@gmail.com](mailto:TheScienceSeed@gmail.com)
